Summary: DropDown button remains animated and open a new empty tab instead of close the subjet's module

Severity: Medium   Reproducibility: Always

Description

When signing in into the virtual campus of 'Universitat Oberta de Catalunya' and subject modules are loaded, the dropdown button for the 75.565 subject remains animated and when the user clicks on it, instead of close the module, a new tab is open and redirect to an empty website.

For more information, refer to the attached files.

Steps

1- Open http://cv.uoc.edu/nplincampus
2- Login into virtual campus
   Try this credential in case you don't have one
   Email: sampleuser@uoc.edu
   Password: sampleuser123456.789
3- Wait until the webpage is fully loaded
4- Have a look at dropdown button for the first subject

Actual Result

Once the website is fully loaded, the dropdown button animation for the first subject, remains active.

When the user click on the dropdown button to close the module, it opens a new tab and redirect to an empty webpage of UOC.

Expected Result

The dropdown button animation should be hidden once the webpage is fully loaded.

The dropdown button should just close the subject module

Environment

SO: Windows 10 64 bits version 2004

Browser: Google Chrome Versión 84.0.4147.105 (Build oficial) (64 bits)

Website: http://cv.uoc.edu/nplincampus
